FEEDBACK

I have been attending TOP Medical Clinic with my son Razin since he was 5 months old. He is 18 months now, and I can honestly say that this clinic provides a caring and professionally orientated medical service at all times. The staff always show willingness and readiness to offer assistance even during the busiest times and are also extremely kind, polite and respectful. I have also been very impressed with the hygiene and cleanliness at TOP Medical Clinic which is always of a high standard.

I would also like to bring to your attention one extraordinary paediatrician at TOP Medical Clinic, Dr Jadwiga Grosicka, who without a shadow of doubt, deserves a special mention as I cannot thank her enough for all what she did for my son when he had pneumonia and when none of the NHS healthcare professionals were able to diagnose it. Her professional expertise and continuously accurate diagnosis and treatment are immensely invaluable to me and my son, and I just wish other NHS professionals were as professional and highly knowledgeable as Dr Grosicka, so that more little patients could experience her excellent care. I do not know how CQC rewards exceedingly good staff, but Dr Jadwiga Grosicka certainly deserves the highest possible recommendation.

Yours faithfully,
