Feedback (please be specific):

Since I've this clinic, always Teresa was take care of me about the blood test.  
She is very kind, helpful, friendly, and she is work as a nurse. She doesn't speak to much english, but she is trying to be all the time open and talk, which is very good. I wish to speak polish, but I can not. I'm so happy to come to this clinic, because everyone so nice & good here.  
Thank you so much for all of you! ♥♥
